MUSICAL INSTRUMENT DISCLAIMER FORM

Instrument Storage Areas

Individual schools may provide storage areas where instruments may be kept overnight, **if necessary**.

These storage areas are not individual lockers, but shelving areas. Since students have access to these areas before and after class, The Charlotte-Mecklenburg Board of Education assumes no responsibility for any loss or damage to any instrument stored at these locations.

School Owned Instruments - Instrument Changes

Students who will be using school owned instruments such as a tuba, bari sax, tenor sax, oboe, bass, clarinet, or French horn, cello, or string bass will need to see the instrumental music teacher about filling out a Charlotte-Mecklenburg Schools Liability Form before an instrument can be used by the student.

All changes of instrumentation are strictly up to the Music Director.

Instrument Repair

If a student's instrument (student owned) needs repair, it should be taken to an instrument repair shop in a **timely manner**. Please provide a written note with the name of the repair shop, the date the instrument was taken in, and when it can be expected to return so that your child's grade will not be affected.

Name of School: _____
